

Wireless outdoor camera

Art.-Nr. TVAC18010B

-
- Wireless outdoor camera for digital wireless monitoring set
 - Simple step-by-step installation with app and QR code (iOS, Android)
 - App access of up to 4 cameras
 - VGA resolution and infrared night vision function
 - Sturdy, weatherproof outdoor cameras (IP66)
 - Professional integrated motion detection (PIR sensor) with alarm function
 - Integrated motion detection (PIR sensor)
-

Sturdy wireless outdoor camera for 24 h safety

This wireless outdoor camera serves as an extension of the digital wireless monitoring set from ABUS. Thanks to the solid, weatherproof design, it is ideal for outdoor areas. The VGA resolution and the infrared night view function ensure optimal video image data quality at any time of day or night. Integrated motion detection with an alarm function reliably detects movement and sets off an alarm if there is danger of unauthorised access.

Intuitive installation with app or QR code

Installation is done step-by-step using the app or the QR code, making it easy even for technical laymen. The app also allows access to up to four cameras of this type, making practical mobile monitoring possible.

Wireless outdoor camera

Art.-Nr. TVAC18010B

Technical Data

DC voltage supply	5V
Frequency	2.4GHz
Height	68mm
Horizontal angle	60
IP protection class	66
IR cut filter	Yes
Image sensor	1/4'' CMOS
Length	150mm
Lens	3,6mm
Max. operating temperature	50
Min. operating temperature	-10
Modulation	GFSK

Net weight	0.39kg
Number of IR LEDs	6
Power consumption	550mA
Range of night vision function	8m
Resolution	640 x 480 (VGA)
Sensitivity	-80 dBm
Transmission power	15 +/- 2 dBm
Width	74mm
Wireless range	100m
