The Smartvest Wireless Motion Detector enables you to monitor rooms, while its battery operation makes it easy to install, avoiding the need for drilling and wiring. It can be relied upon to detect people in the room using infrared, and has a range of up to 12 metres. When the battery is low, the Smartvest Wireless Motion Detector sends an automatic notification to the alarm panel. The free Smartvest app then guides you step by step through the process of replacing the batteries. In combination with the Smartvest Wireless Socket, you can then initiate certain smart functions such as "motion detected" or "light on", in addition to monitoring.

Technical Data

Battery type	3 x AA
Certifications	CE
Detection range of detector (m)	12m
Height	110mm
Housing material	ABS
Installation location	Ambient conditions adapted to optimal transmission power
Length	52mm
Max. humidity	80%
Max. operating temperature	40°C
Max. receiving range (building)	30m
Max. receiving range (outdoors)	100m
Max. sending range (building)	30m
Max. sending range (outdoors)	100m
Min. operating temperature	0°C

Modulation	FSK
Net weight	0,163kg
PIR angle of view	Horizontal: 105°, Vertical: 45°
Pet-proof	No
Power consumption	15mA
Power consumption Standby	0,03mA
Radio frequency	868MHz
Sensor type	PIR
Tamper monitoring	Yes
Type of detection	Heat recognition
Width	61mm
