Documentation

Service note

Please contact your EDISION specialist dealer for any further support and service.

Receiver triton T2

Notes: The front is factory fitted with a protective foil which can be removed easily and with caution.

The scope of delivery may also include parts not listed here

Front Panel

- ① Infrared sensor for the reception of remote control commands.
- ② Display LED, displays current information
- ③ USB / USB: port for USB storage devices.

Back Panel

- ④ ANT IN: Input for connecting the signal from the antenna
- ⑤ HDMI: Connection to an HDTV quality TV
- ⑥ SCART: For connecting to a TV set, using SCART cable [not for HD TV]
- ⑦ Connection for an adapter (DC 5V / 1,0A)

2 Connecting and switching on

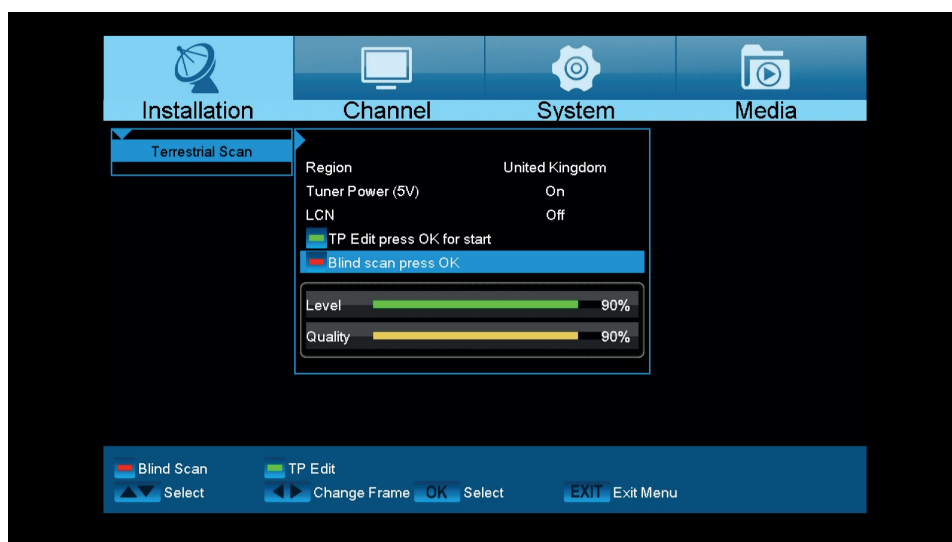

Note: For trouble-free signal reception your antenna and cable installation should be calibrated and inspected by a qualified professional with a digital TV-level-measuring instrument.

- Connect the receiver's **HDMI-output** to the HDMI-input of your television set (TV), for HDTV quality.
- Then connect the coaxial cable from the terrestrial antenna to the **ANT IN** input of the receiver.
- Insert the batteries into the remote.
- Further information you will find at the back of this instruction manual.
- Connect the receiver to the mains power supply network, by means of it's power supply unit included in the package.
- The receiver starts with the BOOT-process and will be ready for you to enjoy in a few minutes.

After the first start, choose your language

3 Installation

Terrestrial Scan

After you have connected the antenna cable to the receiver and have sufficient signal level, select the «Blind scan press OK» button and press the «OK» button or the red button on your remote control to search for digital terrestrial (DVB-T / T2) channels. If you want a manual search, select «TP Edit press OK for start» with «OK» and then press the «OK» button or the green button on your remote control to confirm. Select the «CH. No.» (TP) channel and then «Start Search» with the «OK» or the green button.

4 Remote Control Unit

Note: Many of the listed keys have multiple functions which are shown upon menu display. Some keys and functions refer to optional features. Important features and keys are explained in the functions below.
